Automatch from TargetRecruit

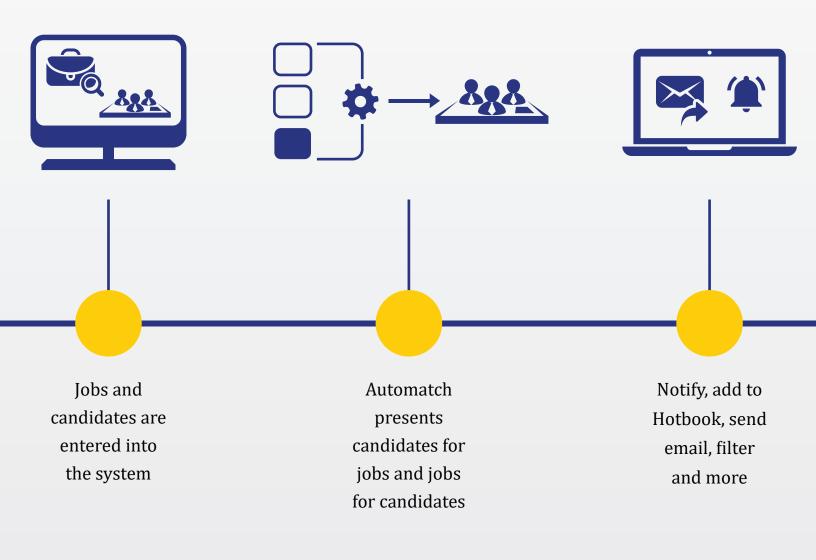

Make the most of your candidate database and waste no time submitting the perfect candidate to the perfect job. Automatch from TargetRecruit automatically matches candidates to jobs and jobs to candidates based on your matching preferences.

sales@targetrecruit.com

+1-888-725-8151

How it works

Automatch will automatically display a list of candidates every time a job is entered into the system either manually or from a VMS. Automatch will also automatically display jobs for a candidate every time a candidate is entered into the system. This way recruiters do not need to manually create searches for every new job and will decrease your time-to-fill.

+1-888-725-8151

Step 1 : Automated Search

The Automatch engine pre-populates the keyword search by taking the 'Desired Skills' listed on the job and Skill Set listed on the candidate, both of which are automatically updated by TargetRecruit based on client specific keywords.

Clients can also set candidate-to-job field filter criteria to return the most applicable matches. For example, the system can exclude closed and filled jobs and candidates that are actively on assignment from the automatch results.

Geographical radius searches can also be applied to return candidates and jobs within a specified radius of the zip/postal code.

		~	\rangle	Sou	urcing
Details	Applicants	Interviews	Placements	Credentials & Shifts	Questions
Job Title		Pharmacy Technician			Stage
Account		Memorial Hospital			Expected Start Date
Hiring Manager		Ralph Henderson			Priority
Lead Recruiter		Steven Cox			Job Publish Site
Job Type		Permanent			Job Publish Tiny URL
Job Category		Biotechnology			Job Application Tiny U
Job Term		Direct Hire			Candidate Search
Sales Opportuni	ty	Pharmacy Tech			Overall Experience
Time to Fill					Testing

Step 2 : Match Display

TargetRecruit displays a list of the matched candidates and jobs on the automated search.

Step 3 : Further Action

You can select one, many or all automatched candidates and jobs, and notify them of the job, create job applicants, add to a Hotbook, trigger Smart Review or Quick Review for cold calling, send mass emails or further filter the list based on your requirements.
