

The Ultimate Enterprise Solution for Staffing Firms

TargetRecruit, built on Salesforce, provides a powerful applicant tracking system (ATS), CRM, and back-office application with vertical solutions optimized for healthcare, professional, and commercial staffing.

With a dedicated team and continuous product enhancements, TargetRecruit is the industry's most competitive enterprise software, tailored to meet the evolving demands of staffing and recruitment.

ATS/CRM Tech Stack

Enterprise-Level Reliability and Scalability

Backed by Salesforce's robust data security and government-grade encryption, TargetRecruit leverages the powerful Salesforce infrastructure to ensure your platform is dependable, flexible, scalable, and secure.

Automation

Streamlined Operations

With TargetRecruit's automation capabilities, build, manage, and run business tasks that transform complex recruitment workflows into streamlined and efficient processes.

Integration

Flexible App Ecosystem

TargetRecruit works with a large partner ecosystem that integrates with our solution. Access pre-built integrations to over 180+ partners and leverage the Salesforce AppExchange with over 3000+ ready-to-install apps.

Configuration

Tailored for Unique Business Needs

Advanced configuration allows you to customize the platform precisely to your organization's needs with 'clicks, not code'.

Customization

Adaptable Solutions for Dynamic Environments

TargetRecruit's customization options enable your business to adapt quickly to shifting business requirements, ensuring the platform grows alongside your business needs.

Reports & Dashboards

Actionable Insights for Data-Driven Decisions

Advanced reporting provides real-time data and historical insights for smart, informed decision-making and enhanced business intelligence.
