# TargetRecruit and Mulesoft

Accelerate application integrations with speed and quality by leveraging TargetRecruit's MuleSoft infrastructure and expertise.

Mulesoft is a leading platform for building application networks. To assist development and IT teams in facilitating app integrations, Mulesoft provides TargetRecruit with a comprehensive solution for designing, building, and managing integrations and APIs with a point-and-click interface and no-code configuration.

Connect Any System and Data with
MuleSoft + TargetRecruit

Connect any data, cloud or on-premise system securely for easier and faster integration, automation, and API management. Deploy MuleSoft solutions to connect the TargetRecruit platform to any system and application.
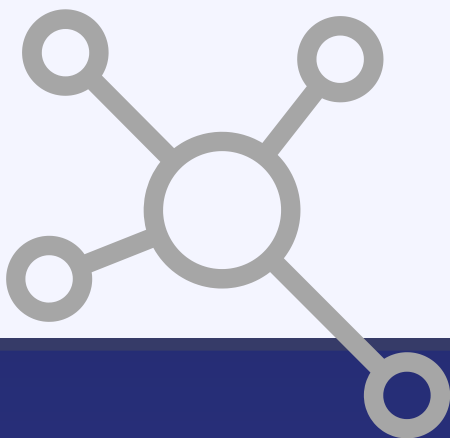

Anypoint Platform™

Mulesoft's core is the Anypoint Platform™, which offers tools for every phase of the application and API lifecycle. With TargetRecruit, access pre-built connectors provided by the MuleSoft ecosystem or discover APIs built anywhere using your CI/CD pipelines.

Connectivity

Mulesoft connects any application, data, or cloud service in the cloud, on-premises, or hybrid to the TargetRecruit platform. Easily automate critical workflows between system integrations.

Pre-built Connectors

With Mulesoft and TargetRecruit, utilize a full suite of pre-built connectors (https://docs.mulesoft.com/connectors/) available in the Mulesoft ecosystem, specifically curated for various applications, data sources, and devices. Seamlessly integrate legacy systems, modern applications, or proprietary platforms with pre-built connectors that enable rapid deployment and implementation. By leveraging TargetRecruit's MuleSoft infrastructure, these connectors can be easily enabled, dramatically reducing the time and effort required for integrations.

FTP Sites / SOAP ->REST APIs

Mulesoft, in conjunction with TargetRecruit, provides the most robust solution to integrate with FTP sites, ensuring secure file transfers and integrations. On the API front, access the simplicity and versatility of REST APIs or the structured approach of SOAP APIs. REST API offers lightweight requests, suitable for mobile applications and web apps with both XML and JSON support. Meanwhile, SOAP API, based on the industry-standard protocol, is ideal for languages that support web services, making it a perfect fit for ERP and finance system integrations.

Security

From tokenization to encryption, Mulesoft ensures data security and protection with advanced in-built encryption. Protect sensitive data through format-preserving tokenization using policies, and establish secure perimeters around data, APIs, microservices, and integrations with TargetRecruit.

Why Choose **Mulesoft**: The Business Benefits

Harness the power of Mulesoft and TargetRecruit to propel your app integrations forward.

Integrating applications, data, and systems can be complex, but with Mulesoft and TargetRecruit, it becomes a streamlined and efficient process. Offering speed and unparalleled connectivity, Mulesoft stands at the forefront of building robust application networks that solve business challenges.

Speed & Agility

Quickly build and adapt to changing business requirements. Increase productivity, lower costs, and reduce time to market with MuleSoft and TargetRecruit.

Scalability

Single unified platform for APIs and integrations, both in the cloud and on-premises. Built on a reliable foundation that can scale as your needs grow.

Future-Proof

Updated enhancement and technological advancements without overhauling your current integrations each time Mulesoft is highly flexible and built for change.

Connect Anything

With a rich ecosystem of pre-built assets, Mulesoft can connect TargetRecruit to virtually any application, data source, or device. Build APIs from scratch for any use case or leverage existing connectors, templates, accelerators, and other integration assets.

Security

Comprehensive security features ensure your data remains protected at all times. Get out-of-the-box compliance for ISO 27001, SOC 2, PCI DSS, and GDPR, and secure your enterprise integrations automatically with prebuilt and custom policies.

Whether transforming data, ensuring top-notch security, or simply connecting disparate or legacy systems, TargetRecruit offers a holistic solution with Mulesoft. With the ability to scale, and future-proof your operations, choosing TargetRecruit means choosing a platform designed for your current business needs and poised to meet future business growth.
